

SMART CAMPUSES

LEADING THE CAMPUS OF THE NEXT CENTURY

2019 OAPPA Annual Conference – May 28 to May 31

Creating Perfect Places -

The Intelligent Higher Education Campus

Presentation Theme

- Digitalization is creating virtually limitless opportunity of higher education institutions to reduce capital and operating cost improving student and faculty experience and helping meet sustainability goals.
- New technologies, when combined with academics and research plant the seeds for a truly integrated learning - creating a truly smart campus.

Learning Outcomes/Take Aways:

- Participants will learn about smart campus solutions available now using today's technology, as well as how to create future adoption.
- This session will offer higher education stakeholders ideas to help create a more integrated learning helping students develop skill sets required to become the workforce of the future.

Presenter:

Rich Nowak -

Rich Nowak is the Head of Intelligent Infrastructure, Strategic Projects He has 19 years of experience in controls, automation, technology and Architects, Engineers and Contractors on a number of projects doing work on buildings including residential, commercial office space, data center, and Pre-Construction for North America and is responsible for developing digital smart systems related to building operation and control.
